

Congratulations and thank you for purchasing the new JMI Motofocus Plus hand control unit. Our new focus motor controller is built using robust modern electronics manufacturing technology and adds many new features to our longtime go-to product.

Features

- Mimics the old hand control unit and is compatible with all prior JMI Motofocus motor units
- Built-in lithium ion rechargeable battery
- 6 hours of continuous motion time
- 20 hours of standby time
- Auto power off after two hours of non-use
- Battery level indicator
- User customizable
- Computer interface, control from desktop application
